
Carrier Heat Pump Service

heat pump | heat pump system | electric heat pump | carrier - carrier split system heat pumps are a smart alternative to an air conditioner, offering heating, cooling, dehumidifying, and more. versatile, energy efficient electric heat pumps are an effective solution to your heating and cooling needs. learn more about carrier residential heat pumps. **product 38byc (60 hz) data 12 seer heat pump** - 12 seer electric heat pump nominal capacity 018 — 18,000 btuh 042 — 42,000 btuh 024 — 24,000 btuh 048 — 48,000 btuh 030 — 30,000 btuh 060 — 60,000 btuh 036 — 36,000 btuh 331 ... partner, carrier corporation has determined that this product meets the energy star® guide- **product data - dms.hvacpartners** - comfort™ 14 heat pump with puronr refrigerant 1---1/2 to 5 nominal tons carrier heat pumps with puronr refrigerant provide a collection of features unmatched by any other family of equipment. the 25hce4 has been designed utilizing carrier's puron refrigerant. the environmentally sound refrigerant allows consumers to make a **product data - arizona air conditioning and heating service** - product data 25hbc5 comfort 15 heat pump with puronr refrigerant 1---1/2 to 5 nominal tons the environmentally sound refrigerant carrier heat pumps with puronr refrigerant provide a collection of features unmatched by any other family of equipment. the 25hbc has been designed utilizing carrier's puron refrigerant. the **product data - arizona air conditioning and heating service** - product data 25hnb6 infinityt16 2---stage heat pump with puronr refrigerant 2to5nominaltons carrier's heat pumps with puronr refrigerant provide a collection of features unmatched by any other family of equipment. the 25hnb6 has been designed utilizing carrier's puron refrigerant. the environmentally sound refrigerant allows consumers to make a **ductless split systems - carrier great lakes** - toshiba-carrier high wall heat pump systems system performance 9 controls standard - convertible optional: 818f0038 (fahrenheit); 818f0039 (celsius) 91 operating range 0 - 115-4 - 75 70 - 90 32 - 82 66' piping 33' 1/4" 1/4" 3/8" 1/2" indoor 31.1 x 10.8 x 8.1 41.3 x 12.6 x 8.9 20 29 5 electrical 208/230-1-60 indoor unit powered from outdoor unit ... **product aquazone™ data 50pch015-060, 50pcv015-060** - controller — carrier's state of the art water source heat pump multiple pro-tocol controller is capable of communi-cating bacnet™, modbus®*, n2, and lon (with a separate card) protocols. the controller is designed specifically for carrier's wshps in order to bring more features and benefits to the units such as waterside economizer control, **packaged unit cross-reference guide - manchester total air** - whenever you are asked to cross reference a brand of hvac packaged equipment, special care must be taken to address all of the potential variables. **heat pumps for commercial applications** - heat pumps for commercial applications north america edition. index introduction 3 the vrf advantage 4 ... toshiba carrier solutions toshiba carrier offers both ductless and ducted comfort ... the vrf heat pump system advantage 4. vrf (variable refrigerant flow) technology is part of an ... **infinity evolution troubleshooting guide rev2** - temperature reading such as heat from direct sunlight. make sure hole in wall behind user interface is plugged. • if the system is over-conditioning, increase the anticipator setting. this adjustment is located in the thermostat setup, cycles per hour screen • if the system is under-conditioning, lower the anticipator setting and if **visit carrier troubleshooting guide** - rpm necessary to operate inducer in low-heat mode. note: the heat cycle can start in either high or low heat. if a high-heat cycle is initiated, the inducer continues increasing its speed after low-pressure switch closes. when high-pressure switch closes, inducer motor rpm is noted by microprocessor before the 25 sec prepurge period begins. **comfort series heat pumps - storage.googleapis** - carrier for complete details and restrictions. combining a gas furnace, an electric heat pump and a compatible thermostat, a carrier® hybrid heat system automatically switches between electric and gas heating to optimize the efficiency of each fuel source. it's the ultimate defense against unpredictable utility costs. **determining air conditioning age & capacity** - determining air conditioning age & capacity as a rule-of-thumb, capacity information is encoded by air conditioning manufactures in the model number and date of manufacture info in the serial number. **operation & evaluation of heat pumps in the heating mode** - document the outside temperature in the written report and, if it is above 65° f, state that the heat pump was not operated in the heating mode due the potential for damaging the unit when the outside temperature is above 65° f. evaluation when conditions permit operation in the heating mode **electric heat lock out on heat pumps - wsu energy program** - electric heat lock out on heat pumps if you heat with a heat pump, it is time to cut your heating cost even more. in most of the u.s., heat pump installations include electric strip back-up heat. the reason for this is that heat pump technology has a limitation: as the outside air gets colder, the heat pump loses capacity to heat. see figure 1: cop **carrier sensors installation guide - sigler commercial** - carrier sensors installation guide . carrier corporation ©2011 ... • over heat sources such as baseboard heaters, radiators, directly above wall-mounted lighting dimmers, or in direct sunlight note the sensor mounting plate accommodates the nema standard 4x2-in. electrical box. however, the **owner's information manual for heat pumps** - owner's information manual for heat pumps important! before you turn your heat pump on! 1. be sure the electrical power has been turned on at the outdoor unit for at least 8 hours. in cold weather 12 hours is better. this is to prevent damage to your com-pressor. 2. be sure all supply and return grilles are open and not obstructed. 3. **heat pump installation instructions - whirlpool hvac dealers** - the heat pump foundation should be raised to a minimum of 3 in. above finish grade. in areas which have prolonged periods of temperatures below

freezing, and/or snowfall, the heat pump should be elevated above the average snow line. if heat pump is to be installed on a flat roof, it should be on a **communicating variable speed fan coil puron® refrigerant** - heat pump heating (without electric heat) modes. the nominal airflow for both heating and cooling modes is 350 cfm/ton nominal refrigeration size of the outdoor unit installed. the airflow actually requested by the user interface is modified by its internal algorithms for zoning, comfort or efficiency concerns. **transport air conditioning - gmcmi** - carrier's air v air conditioning models include cooling only units, heating/cooling units, heat pump units and low profile upper units. the cooling only units are available with free blow or ducted air delivery. **air-cooled liquid chiller reversible air-to-water heat pump** - air-cooled liquid chiller reversible air-to-water heat pump nominal cooling capacity: 65kw nominal heating capacity: 68kw. founded by the inventor of modern air conditioning, carrier is the world's leader in high-technology heating, air-conditioning and refrigeration solutions. **38ckc 50 hz product data - carrier** - adjacent patio areas and foliage. heat pump style drain pan allows for easy removal of water, dirt, and leaves. application versatility — the unit can be combined with a wide variety of evaporator coils and blower packages to provide quiet, dependable comfort. unit can be installed on a roof or at ground level. external service valves — both **heating and cooling with a heat pump - language selection** - heating and cooling with a heat pump rev. ed. canadian cataloguing in publication data the national library of canada has catalogued this publication as follows: heating and cooling with a heat pump (home heating and cooling series) issued also in french under title: le chauffage et le refroidissement à l'aide d'une thermopompe isbn 0-662 ... **11. how to diagnose the trouble - carrier** - after selecting cool or heat mode, select an operation mode again if the compressor keeps stop status for 15 minutes. the compressor motor speed may decrease by high-temp. release control (release protective operation by temp.-up of the indoor heat exchanger) or current release control. file no. svm-07013 **programmable thermostat homeowner's guide** - programmable thermostat congratulations on your purchase of a new carrier thermostat.your new thermostat combines computer-like intelligence with extremely simple operation in an elegant package. ... if you have a heat pump, the display will show off, heat, cool, auto, and eheat. **air conditioning seer/eer degradation - tdhca** - air conditioning seer/eer degradation on the subject of seer determination of air conditioner systems, nrels apa booklet states: ^the default air-conditioner and heat-pump efficiencies in table 8 may be used if the actual efficiency cannot be calculated or measured. **52c series packaged terminal air conditioners/heat pumps** - cq - heat pump 5 - 5.0 kw 12 - 12,000 btuh rc - wall thermostat control 15 - 15,000 btuh rp - wall thermostat control and corrosion protection legend cop - coefficient of performance eer - energy efficient ratio *15k heat pump ratings are preliminary. a member of the united technologies corporation family. stock symbol utx. **installation instructions - adobe** - maintained in the heat exchanger. this can be accomplished with either a control valve installed in the discharge line or a bladder type expansion tank. when using a single water well to supply both domestic water and the heat pump, care must be taken to insure that the well can provide sufficient flow for both. **improved defrost cycle for heat pump systems** - in the summer of 2007, i installed a carrier heat pump for a client in the atlanta, georgia area. this change-out was designed to improve the efficiency of the heating and cooling equipment. the 25hna9 heat pump was a 48000btu/h unit with seer rated 19 and a cop in heating mode of about 3 at 27 °f and about 4 at 37°f. **application data sheet - usair-eng** - line sets or field fabricated tubing for cooling only and heat pump systems: • many service problems can be avoided by taking adequate precautions to provide an internally clean and dry system and by using procedures and materials that conform with established standards. • the lines should be installed so that they will not obstruct **30rb/rq - carrier** - reversible air-to-water heat pump carrier corporation is a subsidiary of the united technologies corp. (utc), which ranks the 150th in fortune top 500 in 2011 and has its operations in **owner's guide - myrvworks** - in addition to cooling the room, your carrier heat pump unit will also heat, filter and dehumidify the room's air. in heating mode, the heat pump will shut down at conditions which would cause outdoor coil freeze up, generally near freezing temperatures. the air v air conditioners quietly give you maximum cooling and heating comfort. **product data - adobe** - product data 38mgr multi-zone outdoor unit ductless system sizes 18, 24, 30, 36 and 48 ... floor console fan coils can be matched with one outdoor heat pump. the indoor fan coils are connected to the outdoor unit by ... hydronic or electric heat and have no ductwork. **how to determine furnace age - inspectapedia** - how to determine furnace age . maintained by send suggestions to scott@honesthomeinspections. com page 4 date of manufacture: using the first and second digits of the serial number . h5. 5116328 you will find the year of manufacture. the first digit (always the letter "h" for the 1980's) is the decade of manufacture **performance series heat pumps - storage.googleapis** - carrier delivers heat pump systems in a range of shapes and sizes. check out this side-by-side comparison to see how our energy-efficient performance™ series heat pumps measure up against our infinity ® and comfort™ models. 25hcb6, 25hpb6, 25hcc5 compressor coil visit carrier for model comparisons and product specifications. **thermostat homeowner's guide - gogeisel** - auxiliary heat indicator is displayed when a heat pump system is operating with auxiliary heat. this is no ordinary thermostat. carrier listened to the needs of homeowners nationwide and delivered a product to meet those needs. the result is a thermostat that interacts with people as effectively as it does with your heating and cooling system. **heat pump - 25hbr3 - alpine home air products** - carrier's 25hbr3 heat pump is available with efficiency ratings of 13.0 seer when cooling and up

to 8.0 hspf when heating. for every \$100 spent to cool your home using a 10.0 seer heat pump, a 13.0 seer heat pump should cost you approximately \$77. actual savings will depend on the efficiency of your current system compared to **fa4b product fb4b data direct expansion fan coil** - † fc4c factory-installed txv is hard shut-off, bypass flow-type for heat pump application. ‡ filter must be field supplied for fa4b units. (see accessory kits.) ** fa4b018 fan coil has a 1/10 hp motor fa4b030 fan coil has a 1/4 hp motor note: descriptions and dimensions apply to all versions (fa4b, fb4b, fc4c, etc.), unless otherwise ... **air conditioner remote controller illustration** - the air conditioner will not operate if curtains, doors or other materials block the signals from the remote controller to the indoor unit. prevent any liquid from falling into the remote controller. do not expose the remote controller to direct sunlight or heat. if the infrared signal receiver on the indoor unit is exposed to direct **models bmlplus 3000/5000/7000 - ewcontrols** - select df, if your system is a dual fuel heat pump with gas or oil furnace backup heat. select conv, if your system is a conventional heat pump with electric resistance backup heat. also applies to ground source/geothermal heat pumps. select on, if you want the indoor blower forced on at the end of a heat/cool call to assist the zone purge cycle. **packaged rooftop heat pump units 3, 4, 5, 6, 7-1/2 and 8-1 ...** - rhs units are high-efficiency single-packaged heat pump units that are pre-wired and pre-charged with r-410a (hcf) refrigerant. electric heat is available as a field-installed accessory. the units are ... carrier corporation • syracuse, n.y. 13221 f.o.b. shipping point **cold weather heat pump operation - pyramid real estate group** - cold weather heat pump operation air to air heat pump systems (different for water to air systems) the basic theory behind the operation of a heat pump system is as follows. during the heating mode the unit extracts heat from the outside air and rejects it into the living space. **light commercial rooftop units stocked locally** - * optional items / numerous additional factory-installed options available comfortlink / bacnet1 / modbus1 / lonworks1 applied commercial rooftop units series weatherexpert® 48/50n weathermaster® 48/50p **service manual for model airv rooftop air ...** - **bryant r.v** - service manual for model airv rooftop air conditioning systems 2p c f h 1 2 blk blu wht wht evap. grn/yel wht brn 1 2 yel red blu r c s red ptc blu. service manual for models 68rv11302a 68rv14102a 68rv14103a ... figure 4-7 heat pump - ceiling unit - free blow 4-3..... figure 4-8 heat pump - upper unit - ducted 4-4..... figure 4-9 heat pump ... **troubleshooting common thermostat problems - totaline** - cooling (most residential carrier / bryant / payne equipment). if the unit is a commercial heat pump, it may not require a heat pump thermostat, disconnect 'o'. 2 p374-0xxx series cooling on heat demand, heating on cool demand - the heat pump setting is configured **roth heat pump refrigeration troubleshooting manual** - water-to-water heat pumps heat or chill water instead of heating or cooling the air (see figure 5). the difference between a water-to-air and water-to-water heat pump is the "load" heat exchanger. a second water-to-refrigerant coil is substituted for the air to refrigerant coil. the "source" heat figure 1: water-to-air refrigeration circuit **appendix 7.2 decoding of manufacturer model numbers** - appendix 7.2. decoding of manufacturer model numbers the department used manufacturer model numbers, among other furnace characteristics, to determine nominal airflow capacity. manufacturers often code furnace specifications into their model numbers. this appendix illuminates the furnace specifications from manufacturer model numbers. **programmable thermostats installation, start-up, and ...** - programmable thermostats installation, start-up, and operating instructions note: read the entire instruction manual before starting the ... carrier's 7-day programmable thermostats are wall-mounted, low- ... this switch converts a 2-speed heat pump thermostat with 1 stage
